DISCOVER EXCELLENCE

Welcome to our exquisite world of sanitaryware designerware, where form meets function, and elegance harmonizes with innovation.

At **HECUBA**, we are passionate about crafting exceptional sanitaryware that redefines bathroom and washarea aesthetics and functionality.

OUR VISION

We envision bathrooms and washarea not just as functional spaces, but as sanctuaries of style and comfort. Our sanitaryware designerware catalog represents the culmination of years of design expertise and a commitment to elevating your bathroom experience.

UNPARALLELED DESIGN

Our collection boasts an array of captivating designs that seamlessly blend modern aesthetics with timeless elegance. From sleek, minimalist lines to intricate, ornate details, every piece in our catalog is a work of art, meticulously crafted to elevate your bathroom decor.

DIVERSE RANGE

Whether you seek a contemporary vibe or prefer a classic touch, our sanitaryware designerware catalog offers a diverse range of options to cater to your unique taste. Explore a palette of colors, materials, and finishes to customize your bathroom to perfection.

EXCEPTIONAL QUALITY

Quality is at the heart of everything we do. Each piece in our catalog undergoes rigorous quality checks to ensure durability, longevity, and a flawless finish. Our commitment to excellence ensures that your investment will last for years to come.

4	MINIMUM THICKNESS	SHOULD BE MIN. 6.0mm AT ANY PLACE	MIN. 7.0 mm AT ANY PLACE
5	WARPAGE	THE APPLIACE SHOULD NOT SHOW WARPAGE MORE THAN THE SPECIFIED LIMITS	WARPAGE WELL WITHIN THE PERMISSIBLE LIMITS
6	THICKNESS OF GLAZE AT NAY PLACE	NOT SPECIFIED	MIN. 400 MICRONS (THAT IS 0.4 mm)
7	SURFACE QUALITY	NO WAVY FINISH ON VISIBLE SURFACE	NO WAVY FINISH
8	DISCOLOURATION	NONE ON VISIBLE SURFACE	NONE ON VISIBLE SURFACE
9	RESISTANCE TO STAINS & BURNS	NO STAIN SHOULD REMAIN ON TESTING	PASSES

TIPS & CARE

*Strictly not to use any kind of Liquide or Acidic substance for cleaning. Neither hard rub surface very frequently

GENERAL MAINTENANCE TIPS

- The bathroom should be cleaned once a week and even more frequently if you are a large family.
- Make it a firm rule in your home to rinse out the tub or shower stall immediately after you use it.
- To discourage mildew growth in the bathroom, increase air circulation and light to decrease moisture.
- Always start cleaning the bathroom from the top and work your way to the floor.
- Install and properly maintain de humidifiers, vents and exhaust fans.
- After handling soapy cleansers and cleaning solutions please make sure you wash your hands clean and wipe them dry.
- Ensure you wipe the bathroom floor dry with the help of a wiper every time after a bath, to prevent slipping and falling.
- Ensure that all electrical appliances in the bathroom are installed away from direct sources of water.

TAPS & FIXTURES

- Avoid using strong cleaning agents to clean taps and other metal fixtures like shower units and knob, these may damage not only the surface coating & affect the working of the product.
- Use mild cleaning to clean taps and other fixtures instad of spray cleaner and rinse thoroughly with water.
- Avoid using acids and bleachesof any kind as these can lead to significant damage.
- A simpe eco-friendly cleaner can be used safely for cleaning metal fixtures. Spray and let it remain on the faucet for 5 minutes and then wipe clean with a damp cloth.
- Inspect the taps for remaining stains, scum or grime. If more cleaning is needed, fill a plastic bowl with 1/2 cup of baking soda and 1/4 cup of vinegar. Scrub the tap with nylon scub to loosen dirt particles and wipe with a soft damp cotton cloth. Finally, wipe the tap dry for a sparkling finish.
- It is also essential to keep the rainage pipes clean to prevent clogging. At least once a month clean up the drains to keep them free of grease, dirt and air. The mixture will foam up. Let stand for a few minutes then pour boiling water down any clogging.
- To clean cloged showerheads, fill a plastic bag with undiluted white vinegar & submerge the showerhead in it. Scure the nag with a rubber band and leave it to soak overnight. The next day, scrub the shower with a toothbrush and wash it clean.
